OFFICE OF THE PRESIDENT

June 13, 1973

Vice Admiral Stansfield Turner, U.S.N., President  
Naval War College  
Newport, Rhode Island 02840

Dear Admiral Turner:

I have just learned from Sandy Trowbridge, President of the Conference Board, that you have been invited to join us at the Chatham Bars Inn on September 28, 29, and 30, in connection with the Northeast Conference of the Conference Board.

I can personally vouch for the quality and stimulation that you can expect to find at this meeting, and I sincerely hope you will be able to find room in your very busy schedule to attend.

Sincerely yours,

John M. Fox

JMF: pd

**Fascinating Tours  
on  
Historic Cape Cod**

*Spt 28 Trip*

**Cape Cod Is One  
County . . . Barnstable  
Divided Into 15 Towns . .  
And Their Many Villages**

The town is the unit of government, each town's political affairs being decided at the annual town meeting, and administered by "selectmen" or a town manager, who are elected by the qualified voters. Most of the towns on the Cape are divided into "villages"; these are not governing units in themselves.

**TOWNS**

Barnstable	Harwich
Bourne	Mashpee
Brewster	Orleans
Chatham	Provincetown
Dennis	Sandwich
Eastham	Truro
Falmouth	Wellfleet
Yarmouth	

These tours were originally prepared by Mr. and Mrs. Eugene R. Ellis, Jr., former managers of the Sagamore Information Booth of the Cape Cod Chamber of Commerce.

note the bleak sand dunes on the right and the Atlantic just beyond. This road winds around the head of the Pamet River. You will pass cranberry bogs, pines and low hills dotted with blueberry and bayberry bushes and wind-swept oaks.

the first right turn on the Catholic Church and then right at Cobbos Library. Pass through a little settlement and at the intersection look across the meadow at Corn Hill. It was on this hill that the desperate hungry Indians, after a漫游 (A漫游) on the cliff at the edge of the right indicate the spot. Bear right and you will soon be back to Route 6.

TRURO

For a visit to Cape Cod or High-  
way 6A, take the first right,  
South Highland Road and the second  
right at Highland House, the non-  
profit home of the Cape Cod  
Atlantic Ocean. This historic light-  
house has one of the most powerful  
lights on the Atlantic Coast and is  
open to the public. From Cape Cod, ships  
can be seen from the lighthouse. From Cape Cod Light, turn right,  
then left on Highland Road under  
the overpass, crossing Route 6A which  
leads to the Cape Cod Canal. From  
where a tablet indicates the spot  
where 16 Pilgrims led by Miles  
Standish encamped on the shore for  
the second winter of 1620, turn right  
on Highland Road and follow on  
to Provincetown. Cover 6A until  
you reach the Cape Cod Canal  
where on the left you will see the  
harbor, busy with the fishing  
fleet. The oldest house in Pro-  
vincetown, built in 1746, is on this  
street.

Be sure to visit the Provincetown Marine Aquarium, just past the Post Office at 201 Commercial street, for a unique Cape Cod setting, over 40 Atlantic species are on display. Dolphin shows. Unique aquarium. Admission.

A trip to Provincetown is not com-

A diagram showing a path from a small circle labeled '6' to a larger circle labeled '28'. The path is indicated by two curved lines meeting at a point between the two circles.

A map of Buzzard's Bay, Massachusetts, showing the coastline and several islands. A specific point on the mainland is labeled 'BOURNE POINT'. To the west of Bourne Point, a body of water is labeled 'HERRING LAKE'. The label 'BUZZARD'S BAY' is written vertically along the western side of the bay area.

A small map of the Brewster area. It shows a coastline with several locations labeled: 'DENNIS' at the top, 'EAST DENNIS' on the left, 'WEST DENNIS' on the right, and 'BREWSTER' at the bottom. A large, irregular shape is labeled '6A' inside it.

A map segment showing a street layout. A diagonal street is labeled 'BREWSTER ST' in all-caps. A horizontal street running perpendicular to it is labeled 'TERRELL AV' in all-caps. A route marker for '124' is located at the intersection of these two streets.

A black and white photomicrograph showing a cross-section of biological tissue. The tissue is composed of various cellular components and extracellular matrix. A small, dark, triangular-shaped structure is labeled with the letter 'H' in the upper right quadrant. The image is framed by a white border.
